And A Pleasant Time Was Had

Owing to the absence of Councillor Allen there was nothing of interest at the meeting of the Council held on Monday last.

There were the usual details of routine and the ordinary humdrum monotony of questions which answered themselves; one letter of resignation and several accounts; our request which was granted; and one which was not; no new business; no unfinished business; and in fact the only interesting event of the session was the adjournment motion, which was initiated by Councillor Playfair in a very eloquent manner accompanied by some very moving gestures on the part of every member of the Council and also our venerable solicitor.

Bassano Bachelors Mourning

The Bassano Bachelors regret to record the loss of one of the most outstanding members of their fraternity who succumbed to the epidemic of matrimony which has recently decimated their ranks. *Required in haste*. Needless to say the Bachelor in question was Jack Allan, who was married this week to Molly Mort at Medicine Hat. The whole town and district will, we are sure, join in congratulating the happy couple, for they are two of Bassano's most deservedly popular people.

Oddfellows Install

The installation of the Officers of the Bassano Lodge of Oddfellows coincided with the official visit of the Grand Master and Grand Secretary (Continued on page five.)

U.S. War Veteran Returns

Charlie Clark, who was one of the first Americans of the district to enlist in the U.S. army in 1917, and who, after serving in France for twelve months, was wounded in the foot in one of the last engagements of the war, is visiting in Bassano this week. Charlie has a heap of interesting reminiscences to relate, which his natural modesty will not permit him to recount to the press. Anyhow Bassano is happy to have you back Charlie, and would like you to take off your shoes and stay for a while.

Hospital District Organisation Completed

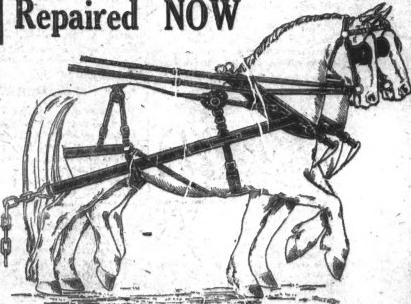

The Board of Directors, appointed by the Provincial Board of Health for the purpose of preparing a scheme to be submitted to the ratepayers at some future date, met at the Town Hall, Bassano, on Wednesday, January 15th, and, with the assistance of A. McKay (organizer of Municipal Hospital District), completed all the preliminary arrangements in connection with the proposition.

The scheme, as proposed by the directors, is a broad and comprehensive one, which will undoubtedly meet with the full approval of the ratepayers.

While it is not possible to give a complete report of the scheme, we are able to advise our readers of some of its details in connection with the rate of taxation and the scale of charges which it is proposed to make at the hospital.

Years and Years of Glorious Music

The New Edison Diamond Amberola is a marvelous invention, even for a genius like Thomas A. Edison. So perfect is its construction and mechanism, that it will give you years and years of exquisite pleasure without the bother and expense of providing and changing metal needles.

The NEW EDISON DIAMOND AMBEROLA

has a diamond reproducer point that never wears out, And the AMBEROL RECORDS—almost unwearable and nearly unbreakable—have been played 3,000 times in laboratory tests without showing noticeable signs of wear.

How To Have Them, Free.

We want to put you in a position where you can decide that the entertainment, education and instruction your entire family would receive from this almost human instrument, are worth many times the cost of the Amberola. Simply ask us to send you an Amberola and a choice selection of Records. Play them in your own home, over and over again, and then if you decide to keep the outfit, we will arrange terms if you like. If you do not care to keep the outfit, simply notify us and we will send for it. That's all.

The New Edison Diamond Amberola.

J. H. Stiles,

Bassano, Alta.,

The Bassano Mail.
Publishers: The Mail Publishing Co., Ltd.
Managing Editor: E. G. Allen

The Post Office Inspector, in whose department the responsibility for the service to county offices rests, has not yet seen fit to adjust the outrageous conditions which have been imposed upon the farmers living north of the Red Deer river.

Mr. Bruce, (the Inspector) has however, condescended to ask residents in that district to forward to him "any specific and fully authenticated instances where the mail has been delayed."

Ye Gods! The ingenuousness of the man is refreshing, and his ignorance of the conditions would be diverting were it not so pitiful, and were it not that as a result of that ignorance the public are so poorly served.

But, Mr. Bradshaw, to whom the request was made, has provided the gentlemen with some beautiful specimens of the handicrafts of the department he represents. In fact the letter of request itself is one of the specimens, having taken eight days from the date of despatch from Calgary to reach its destination at Pardosa. One letter containing a telegram is the real gem of the collection having taken a master of sixteen days to reach Pardosa from Bassano.

And the funny part in the whole story is that Mr. Bruce realizes that this is Canada in the twentieth century, and he also knows that he and his staff are paid to serve the people who pay them. If the dear old fellow believed that he was in Siberia, way back in the medieval times, and that he was exercising a benevolent autocracy we might be able to understand his toleration of the sheer incompetency of himself and his subordinates.

Once again we would urge our readers who are most directly concerned by this outrage of public service to forget that such a man as Bruce ever existed, and straightway forward their protest and petitions to the Post Master General at Ottawa.

There is no reason on earth why H. H. Halliday should not interest himself in this matter and we would suggest that a copy of the petition be forwarded to him, with a strong hint that he get busy right away.

At the last meeting of the Bulyea Municipality it was decided to borrow the sum of \$22,000 for the purpose of supplying Seed Grain to Farmers, for the year 1919. It is always claimed that "The Lord helps those who help themselves" and we trust that the result of this year's crop will strengthen the claim.

In the last issue of the "Brooks Bulletin" the editor states that while he believes in the principle of the Municipal Hospitals' Act, he is of the opinion that the Bassano Municipal Hospital District takes in too much territory and gives the area comprising the territory between Tilley and Queenstown.

Bro. Nesbitt's argument might have weight if his figures were correct, but they are not. The action of the Brooks Council in turning down the proposal that the town should be included in the District has been responsible for the restricting of the eastern

boundaries of the district at Rosemary and consequently Duchess, Millicent, Bronx, Sutherland and Tilley are unfortunately prevented from participation in the benefits and privileges which the Municipal Hospital will confer.

We are pleased, however, to find that the principle of the scheme is endorsed by the "Bulletin," even though it was opposed to the scheme itself, as applied to Brooks.

Every farmer in the district would be glad to know that an Agricultural Society was about to be formed in Bassano and that an Annual Exhibition would be arranged under its auspices. Somehow or other the proposition doesn't seem to find favor in town.

It's a good and almost necessary thing, and one which would draw the town and country together than anything else we know—but, for some mysterious reason it has never been accomplished. Possibly a little "Get together" meeting might help to solve the question.

So far as we have been able to gather, no one has begun to work in the business of securing a Custom's House at Bassano. We leave the offices and the need which is obvious to everyone will be accentuated when the new settlers arrive from the States, but, as usual, we suppose nothing will be done until either Brooks or Kleinhenz secure the port.

Notice to Creditors and Claimants

In the estate of LEE LEONARD SANDHUM, late of Bassano, Alberta, Farmer, deceased.

NOTICE is hereby given that all persons having claims on the estate of Lee Leonard Sandhum, who died 2nd July, 1918, are required to file their claims with the Administrators of his estate, by the 15th February 1919, a full statement, duly verified, of their claims and of any securities held by them, and that after due date of filing, Administrators will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notes may be so filed or brought to their knowledge.

Dated this 8th January, 1919.

Buy an Irrigated Farm

From the Canadian Pacific Railway.

Irrigation makes the farmer independent of rainfall, and insures good crops, not occasionally, but **EVERY YEAR**.

Irrigation makes possible the successful culture of alfalfa, the king of legumes, which insures good returns in dairying and mixed farming.

Irrigation means revenue-producing investments, with all the advantages of a definitely-purchased agricultural investment.

Irrigation in the Canadian Pacific Irrigation Block is no longer an experiment, the year that it has been tried having absolutely demonstrated its success wherever intelligently applied.

This is the most liberal offer of irrigated land on record.

For full particulars, apply to

Allan Cameron, General Supt. of Lands

Canadian Pacific Railway, Department of Natural Resources

926 First Street East, Calgary, Alberta.

BECAUSE—

the Canadian Pacific Railway at prices up to \$60 PER ACRE, with twenty years to pay and the privilege of a loan of \$2,000 for improvements (6% interest); no principal after first payment until end of fourth year, reduced interest if settlement conditions are complied with, and no water rental for first year.

Contract can be paid off before maturity if desired.

Successful Carnival

The only persons who did not enjoy the Ice Carnival last Friday were those who did not attend. Everybody else was delighted and had good reason to be, for the weather was perfect, the ice good, and the crowd determined to have a good time.

The great majority of the masqueraders were of the decidedly younger set, but the few adults who resisted the temptation offered by fair-off greener fields, and stayed in their own home town, were yet enough to provide some good sport.

The Races were hardly up to expectation, the only remarkable feature being the case with which Joey Gray outstripped all his opponents boys and men alike. The Boys under 12 race the winner Barthel put up a very good time for the two laps and should make a good racer before long.

The prize-winners were as follows: Ladies Fancy, Miss Rogers; Girls Fancy, Alice; Girls Fancy, Vera Torgan; Girls Comic, Roy Smith; Girls Clown, W. T. Hayes; Girls Fancy, Boys Comic, Mills Kates; Girls Fancy, Girls Race, Miss Rogers and J. Massin; Men's Race, Joey Gray; Boys Race, Joey Gray; Men's Back Skating, Percy Crane; Boys Relay, Jack and Girls Race 16 and under, Nola King; Ladies Race, Mrs. Murdoch; Boys under 12 Barthel; Girls under 12 D. Tracy.

The prize-winners were as follows:

Ladies Fancy, Miss Rogers; Girls Fancy, Alice; Girls Fancy, Vera Torgan; Girls Comic, Roy Smith; Girls Clown, W. T. Hayes; Girls Fancy, Boys Comic, Mills Kates; Girls Fancy, Girls Race, Miss Rogers and J. Massin; Men's Race, Joey Gray; Boys Race, Joey Gray; Men's Back Skating, Percy Crane; Boys Relay, Jack and Girls Race 16 and under, Nola King; Ladies Race, Mrs. Murdoch; Boys under 12 Barthel; Girls under 12 D. Tracy.

The prize-winners were as follows:

Ladies Fancy, Miss Rogers; Girls Fancy, Alice; Girls Fancy, Vera Torgan; Girls Comic, Roy Smith; Girls Clown, W. T. Hayes; Girls Fancy, Boys Comic, Mills Kates; Girls Fancy, Girls Race, Miss Rogers and J. Massin; Men's Race, Joey Gray; Boys Race, Joey Gray; Men's Back Skating, Percy Crane; Boys Relay, Jack and Girls Race 16 and under, Nola King; Ladies Race, Mrs. Murdoch; Boys under 12 Barthel; Girls under 12 D. Tracy.

The prize-winners were as follows:

Ladies Fancy, Miss Rogers; Girls Fancy, Alice; Girls Fancy, Vera Torgan; Girls Comic, Roy Smith; Girls Clown, W. T. Hayes; Girls Fancy, Boys Comic, Mills Kates; Girls Fancy, Girls Race, Miss Rogers and J. Massin; Men's Race, Joey Gray; Boys Race, Joey Gray; Men's Back Skating, Percy Crane; Boys Relay, Jack and Girls Race 16 and under, Nola King; Ladies Race, Mrs. Murdoch; Boys under 12 Barthel; Girls under 12 D. Tracy.

The prize-winners were as follows:

Ladies Fancy, Miss Rogers; Girls Fancy, Alice; Girls Fancy, Vera Torgan; Girls Comic, Roy Smith; Girls Clown, W. T. Hayes; Girls Fancy, Boys Comic, Mills Kates; Girls Fancy, Girls Race, Miss Rogers and J. Massin; Men's Race, Joey Gray; Boys Race, Joey Gray; Men's Back Skating, Percy Crane; Boys Relay, Jack and Girls Race 16 and under, Nola King; Ladies Race, Mrs. Murdoch; Boys under 12 Barthel; Girls under 12 D. Tracy.

The prize-winners were as follows:

SOMETHING TO REMEMBER!

Expert Watch Repairing that is Guaranteed
100 per cent Service for every dollar expended

The Powers Optical & Jewellery Co., Bassano

Organisation Completed

(Continued from page one.)

The rate of taxation to the farmer will be \$4.80 per quarter-section while the rate in town will be proportionate.

The new year will naturally be the first year and it is expected that in the succeeding years the taxation will be considerably less.

The fees proposed to be charged will be \$1.00 per day for raters and children of raters up to the age of 21, and \$3.50 per day for non-taxpayers. Resident non-raters, however, by the payment annually of \$4.80 may obtain the same rate as raters. Farmers, by paying the same sum per capita for hired men or servants may also obtain the same rate.

It will readily be seen how great a boon the municipal hospital must prove to the district, especially to the farmers for not only are the fees nominal, and in view of the fact that no one need pay more than \$1.00 per day, but the hospital itself will be fitted up to meet almost any emergencies, and will be a benefit to every member of the community.

"Some" Weather

Weather conditions this year, so far, have been absolutely ideal. Since New Year's Day we have scarcely known the sound of zero and the mercury has flirted with freezing and sometimes alternately.

But Sunday was the plumb line for January weather. Following a cold snap which lasted all day Saturday, Sunday dawned upon a perfect Spring day, and at one time the temperature rose to as high as eighty degrees. About eleven o'clock at night it began to rain and continued for nearly half-an-hour.

The utmost optimism (despite Foster and his predictions) prevails among the farmers who are anticipating real Alberta banner crop conditions for the coming year.

Unless somebody spills the beans in February, spring work should open very early this year for the frost has not penetrated the ground anywhere near its usual depth.

Roseneath looks forward to a record year for there has never been so much land ready for crop as there is at this time and, also, a large number of new farms are to be ready for spring right now.

started this year.

Our farmers are preparing to take advantage of the unusual conditions and many have their outfit ready for spring right now.

Oddfellows Install

(Continued from page one.)

Bro. Tully and Tisdale, provided the brethren of the local lodge with one of the most interesting and enjoyable sessions held for years.

After the installation the members served a most elaborate banquet to the visitors, at the conclusion of which some excellent speeches were delivered by the Grand Lodge Officers, and also by Bro. Dooley and Hubba, upon the world of Oddfellowship the world over.

Particularly interesting was Bro. Tisdale's response to the toast "The Work of the Lodge," for intimate knowledge of Oddfellowship to-day and its educational, social and charitable activities.

The Grand Master's description of the Order's work in connection with entitled brethren was of a highly gratifying nature, revealing the fact that it had not only done a good work up to the present but was fully prepared to continue that work while the need existed.

Tonight master Flanagan handled his job in his usual efficient manner especially colloquial was his opening of the ceremonies.

The officers for the ensuing term are as follows: J.P.G., H. Beeber; N.G., H. Nash; V.G., B. Plumer; Secy., E. L. Skeritt; T., J. Wright War; J. Scott; Con., J. Stiles; Carpenter, J. Allen; O.G., F. Carpenter; L.G., J. Clyne.

BREAKING or DISCING

Can handle large or small contracts, just completing contracts for spring work. Have large outfit and can guarantee satisfactory work.

Alberta Farmers--- Important Notice

Five good reasons why you should vote for Municipal Hall Insurance, at the Municipal Election to be held on the 27th February, 1919.

THE MANAGEMENT will be entirely in your hands.

THE PLAN is automatic but not compulsory. All crops of grain not withdrawn are automatically insured. Premiums are payable in monthly installments before 1st June, otherwise all grain crops are automatically insured for \$6.00 an acre.

Premiums levied on crop area only so that every farmer gets his insurance at the same price per acre. Premiums high enough to pay all losses in full and payable on or before December 15th without interest.

For further information see your Secretary-Treasurer, or write

The Hail Insurance Board
EDMONTON ALBERTA

Scene of Unusual Activity When Delegates Assembled

Paris.—The languid atmosphere of the peace conference will be held on January 20.

Le Mail, outlining the chief territorial problems, says Great Britain, besides colonial claims, will seek to turn up a protective colony with India as a protectorate over concerning Arab states.

Paris. (Sunday).—The supreme council of the peace congress, consisting of President Wilson and the plenipotentiaries and foreign ministers of the four great powers—Great Britain, France, the United States and Italy—met at three o'clock this afternoon at the French foreign office for the first formal exchange of views and to make permanent arrangements for the procedure during the conference tomorrow when the full delegations will be present.

Those present were Premier Lloyd George and Foreign Minister Aristide Briand, of France; President Wilson, of America; President Robert Lansing, of the State Department; Georges Clemenceau and Foreign Minister Pichon, of France; President Orlando and Foreign Minister Baron Vittorio Emanuele Orlando, of Italy; and Marshal Ferdinand Foch, Generalissimo, French Minister of Marine; Etienne Clementel, minister of commerce, and Louis Loucheur, minister of industrial reconstruction.

Todays meeting was chiefly interesting to persons—representatives bringing together for the first time in contact of the world's best known statesmen, who are now the guiding figures of the congress.

The scene as they assembled was one of quiet and dignity. The day was dark and raw and the statesmen arrived at the meeting place in heavy wraps. The usual calm across the Seine was interrupted by the great roar of the guns of the "Quai d'Orsay, anxious to pay tribute to the notable figures concerned in the world's most dramatic functions. Batteries of photographers and of moving picture photographers were down flanking the steps of the foreign ministry. Lines of soldiers and other guards preserved order.

Marshal Foch was the first of the high plenipotentiaries to arrive. He came at two o'clock and found himself in the assembly hall. Soon after, Foch came Robert Lansing, the American secretary of state. At 2:45 pm. President Wilson, arrived. M. Clemenceau, the French prime minister, followed. He was alone, and bore a serious mien. Sigmar Orlando, the Italian premier, came soon afterward. And finally, Sir Edward Lloyd George, the British prime minister and Arthur J. Balfour, the British foreign secretary, who motored up together. Military aides followed. British commissioners, carrying a large dispatch case, followed.

The conference opened promptly at 3 o'clock. The meeting was an extended one. It was mainly for the purpose of settling new terms for protection of colonies and territories January 17, and for determining the number and composition of the delegations of the various countries for the sessions of the peace congress which is about to open.

As a result of today's council, it is

STILL LAYING MINES

Russia Bolsheviks are Filling Approaches to Kronstadt

Stockholm.—The mine danger is a menace to navigation in the Baltic. The Swedish authorities have issued a ban on open mines, but they have no intention of stopping the German mines except so far as is made necessary to provide safe lanes for the enemy warships. The Swedish minister of marine, Palmér, said that the mine fields were extremely costly and laborious. The clearing of the Kattegat has already cost this country nearly 700,000 (750,000) kronor.

The minister says that it is obviously Germany's business to lay mines in the Kattegat. The Spartacists appear to have transferred the struggle to the provinces, where they seem to be gaining what they lose in the capital.

Karl Liebknecht failed to have proclaimed a "Red Year" and dictatorship. The Spartacists declare a general strike "to save the revolution" has been declared.

No Control About Baltic Mine

Geneva.—Witnesses of the German revolution, according to the Lausanne Gazette, declare the most amazing feature is the absence of interest even in Prussia in the political situation in the Baltic.

The police by quick work prevented an outbreak here which had been arranged to occur simultaneously with that in Buenos Ayres.

Stefanson Honored

Washington.—Vilhjalmur Stefansson, the Canadian explorer and author of the famous gold medal of the National Geographic Society for his achievements during the last five years, in which he reduced the unknown polar regions of the western hemisphere by approximately 100,000 square miles, has made an important contribution to the geography of hitherto unknown areas for many years.

Poles are Defending Lemberg Destroying Germans

Warsaw.—The Poles are making a gallant defense of Lemberg with limited means, but the Bolsheviks have been aided by German guns and German bombers, while destroying the city.

The besiegers are estimated to number 50,000, commanded by former Foreign Minister of Poland, who was also chairman of the Ukrainian peace delegation at Brest-Litovsk.

The Ukrainians threaten the water and land supply of the city, while food is becoming scarce. Only a few of the civilians have been able to escape from the city owing to the poor railway service. The Polish troops are being aided in the defense of the city by citizens of Lemberg, including girls and boys. In November the citizens aided the Poles in saving the city from the Ukrainians.

World War With French

Paris.—If France took the initiative in refusing to deal with the Russian Bolshevik government, declares the Exclisor, the London and Washington governments have made it known that they would agree absolutely with the French viewpoint.

Many a good woman can see where she might have been better looking.

Lower Tarif is Forecasted

Day on Agricultural Impulses to Be Set by Paris

Ottawa.—It is understood on good authority that for the coming session of parliament the government is considering seriously the removal of the extra duty of 7½ per cent. in the general tariff imposed in the first session after the war, that it will place definitely on the free list farm tractors costing under \$1,400 the same duty and rebate and reduce to 12½ per cent. the duty on agricultural implements.

This would be about all for this year. Other adjustments are waiting the peace committee, and there are some financial implications incident to it. A second, doubtful, that the Ebert-Schleiden government has now credited with a somewhat greater disposition to give and take in the view of the low tariff sentiment of the west. Big profits made during the war have been reflected in the antagonism of some of them to any interference with the tariff.

Russia Plans Uprising

Moscow.—The police have uncovered a plot on the part of the Russians to instigate a Bolshevik movement here and in Buenos Ayres. Four of the leaders in the movement are said to be members of the International in a plot to overthrow the German and the Russian governments and institute soviet in both countries. The police by quick work prevented an outbreak here which had been arranged to occur simultaneously with that in Buenos Ayres.

Stefanson Honored

Washington.—Vilhjalmur Stefansson, the Canadian explorer and author of the famous gold medal of the National Geographic Society for his achievements during the last five years, in which he reduced the unknown polar regions of the western hemisphere by approximately 100,000 square miles, has made an important contribution to the geography of hitherto unknown areas for many years.

Jews As Citizens

Paris.—Rights of citizenship for immigrants by foreign governments of all Jews born in that country, it is announced in a letter written by V. Antonescu, Rumanian minister to France, to M. Rothschild.

Notable Canadian War Correspondent

P. A. McKenzie

Mr. E. A. McKenzie, the war correspondent, who has come to Canada from the front line to deliver a series of lectures on the recent battles in France, is a Canadian by birth, although he has lived most of his life in Great Britain and other parts of the British empire.

Sailors Being Released

Applications for Preferential Treatment Cannot Be Accepted

Ottawa.—The following was issued by the naval department:

A great number of applications from all parts of Canada are being received by the naval department for the discharge of men belonging to the Canadian naval forces. It is desired that all men be discharged for temporary service in the Royal Canadian Naval Forces as soon as possible.

The absolute necessity of releasing men for the care and maintenance of the ships until final arrangements are made for permanent staffs to do this work, will not permit of everyone being released at the same time.

Applications for preferential treatment will be considered by the naval department, but the time required for the voyage is a matter of duty to make the voyage between London and Paris in the most expeditious way. Flots at least are indicating that there is no great risk in having any other means of transportation.

The three-seas as well as the big Handley-Page are arranged for the maximum of comfort. There are upholstered seats, a heating plant, and ample room for the passengers. The Spanish-Morocco question has also been settled to the satisfaction of England and France.

Hindenberg With Troops in Berlin

Government Is Now Definitely in the Ascendant

London.—All reports from Berlin, including those from the front, indicate that the government is now definitely in the ascendant. The troops, who after a brave show at the outset, repeatedly have shown themselves accessible to Spartan persuasion, now have apparently given up the idea of rebellion and decisively on the side of the government.

Paris.—Semi-official advice from Berlin indicates that the insurrection is dead, and that the government is becoming more and more inclined to it.

A second doubtful, that the Ebert-Schleiden government has

been maintained by the local troops whose discipline has been strengthened by the presence in the rear of the German army.

The Spartacists appear to have transferred the struggle to the provinces, where they seem to be gaining what they lose in the capital.

Karl Liebknecht failed to have

proclaimed a "Red Year" and dictatorship.

The Spartacists declare a general strike "to save the revolution" has been declared.

KIDS' PAIN
No. 606. \$1.25

Chaos Threatens Europe

Tide Can Be Stemmed Only by Early Peace

London.—This week has witnessed a strong and general demand from the most influential British newspapers, regardless of politics, for the prompt meeting of the peace conference and prompt action to stem the tide which is threatening Germany because of the introduction of Bolsheviks by way of the border states.

There is a dawning recognition that if another seizes Central Europe, the decisions of the peace conference in favor of Russia and her Bryanian satellites can be enforced only through military control by the allies and the agreements otherwise becoming merely "scraps of paper."

Minaid's Liniment Cures Diphtheria.

Claims World Saved by Britain

The bold fold by James R. Day of University of Syracuse.

Toronto.—That Great Britain saved the world is the pride paid by James R. Day, chancellor of the University of Syracuse, in a letter received by Sir George H. Bates, one paragraph of his letter follows:

"There is not a shadow of doubt that Great Britain saved the world. We did our little part, but without Great Britain we would have been finally too late, weak, without supplies. Britain should have forced the thing to victory, but we did not do it. We are now together, with Britain, and I am sure Britain will have forced the world to victory, but we did not do it. It is stated that three other battle cruisers of the same type are being built."

"Worms in children, if they are not often dead. Mother Graves' Worm Exterminator will protect the children from these distressing afflictions."

Establish Canadian Credit in France

Negotiations Were Opened Upon Silas A. Hart.

Ottawa.—With reference to the matter of Canadian credit to be available for the purchase of commodities in Canada required for the armament of the French fleet, it is stated officially that immediately after the signing of the armistic negotiations were opened by the minister of finance with representatives of the French government in the U. S. and with the establishment of such credit. The matter was placed before the French government for consideration. It is reported that the members of the Dominion government and the representatives of the Canadian trade mission who are about to visit Paris, will be able to complete arrangements at an early date. The government here has called all necessary information as to terms of the proposed credit.

Women are queer creatures. One may laugh at you if you are rich and smile on you if you are poor.

Two heads may be better than one—but not in the same family.

All is fair in love except the actions of the other fellow.

To act for Dominions.

London.—Dominion News declared Premier Louis Bouthillier of South Africa, Premier Borden of Canada and Premier Hughes of Australia will represent the overseas Dominions of Great Britain at the main peace conference.

Women are queer creatures. One may laugh at you if you are rich and smile on you if you are poor.

Two heads may be better than one—but not in the same family.

All is fair in love except the actions of the other fellow.

Cuticura Heals Sore Red Pimples

Iitching, Burning and Irritated. Lost Sleep.

"My face broke out in pimples that would heal up and then break out again, and all the time itching and burning, and blistered."

"I had a lot of sleep, I thought for weeks, 'What's the trouble?'

"I went to a doctor, and he said, 'It's Cuticura.' I used Cuticura, and two or three days of Cuticura, and our love of Cuticura. Cuticura healed my face completely." (Signed) Lloyd George, London, Ontario, Oct. 13, 1917.

"Skin troubles are quickly relieved by Cuticura. Cuticura is the best medicine, the Oldest and Surest Remedy."

"For redness and irritation, Cuticura, Dept. A, Boston, U. S. A." Sold everywhere.

Allies May Have To Force Issue

Germany Has Failed to Comply With Armistice Terms.

Potsdam.—Only a few more days remain before the expiration of the time allotted to Germany for the meeting of the armistice terms of Marshal Foch, and many of the demands still outstanding have not been complied with. This is particularly true as concerns Article 4 of the armistice, regarding the surrender of war material, especially guns and airplanes. About 3000 trucks have been delivered to the allies, but the engines turned over equal only half the number stipulated in the armistice. A great number of the 150000 men of the German army, called for, are still unaccounted for. In addition naval units, including submarines, remain in German ports, although under the terms of the armistice they should have been surrendered.

Added to the non-delivery of the surrender of material, is the failure of Germany to abide by her agreement to repatriate immediately a great number of entreated soldiers as prisoners of war, though she has not yet answered the question as to whether Marshal Foch's indulgence, the interred command will not be more severe in its dealing with her. Fortunately Mrs. Nissau, head of Dr. Chase's Nerve Food while in Germany, has expected request by Germany for a truce delay in meeting the allied terms comes up for discussion.

Mammoth Fighting Ship

H.M.S. Hood Gosses More Miles an Hour and Carries Eighteen 15-inch Guns.

London.—Although no official statement has yet been made, it is understood that the British warship Hood, now nearing completion, will be the largest fighting vessel in the world.

She is 894 feet long and will carry 15-inch guns. Her hull will carry 15-inch guns. Her hull will carry 15-inch gun, against which she will be able to withstand 15-inch shells.

She is expected to make a speed of at least forty miles an hour.

The Hood will cost three and three-quarters of a million dollars.

It is stated that three other battle cruisers of the same type are being built.

Worms in children, if they are not often dead. Mother Graves' Worm Exterminator will protect the children from these distressing afflictions.

Mr. Ernest Page, Killarney, Lake, Alberta, writes:

"I want to tell you how much good Dr. Chase's Nerve Food has done for me. I have suffered from headaches, from which I could get no relief. I went to a doctor, and he told me that I had a tumor in my head, and also in my hands and feet. I had a pain around my head, and I had a pain around my heart, and I had a pain in my hands and feet. I took Dr. Chase's Nerve Food, and the first box took half the pain away. This is great news to me, and I thank Dr. Chase for the only thing that has done me any good."

Rev. G. H. Findlay, Port Hawkesbury, B.C., also writes: "This is to let you know that Dr. Chase's Nerve Food is wonderful, and would be of great service to you. For the facts stated above."

Here is another letter of Dr. Chase's Nerve Food, from a man suffering from nervous headaches.

Mr. Ernest Page, Killarney, Lake, Alberta, writes:

"I want to tell you how much good Dr. Chase's Nerve Food has done for me. I have suffered from headaches, from which I could get no relief. I went to a doctor, and he told me that I had a tumor in my head, and also in my hands and feet. I had a pain around my head, and I had a pain around my heart, and I had a pain in my hands and feet. I took Dr. Chase's Nerve Food, and the first box took half the pain away. This is great news to me, and I thank Dr. Chase for the only thing that has done me any good."

Through this leadership, sane and safe ways can be evolved. The morale of the community must be the morale of the army, and the morale of the civilian must not lose its grip on the people—on this will depend the history for years to come. The end of the war summons the teachers, parents, and all others to a serious civic service as Lloyd George has recently said—"We want neither re-action nor revolution, but a sane, well-advised steadiness of bold re-construction."

CHILBLAINS

Early and Quickly Cured with EGYPTIAN LINIMENT

Appointed to Responsible Position

Paris.—Herbert Hoover has been designated director general of food relief measures in restored, neutral and enemy territories, it was officially announced.

Threatened With Paralysis

Sever's Nervous Headache and Number of Head and Feet Was Most Alarming, Satisfactory Restorative.

Treatment was Found

Port Hawkesbury, B.C., Jan. 15.—John M. Simon in regard to his cure is vouchsafed by his pastor, Rev. G. H. Findlay, who says the extreme case of nervous exhaustion and the symptoms pointing toward paralysis was cured.

Fortunately Mrs. Nissau, head of Dr. Chase's Nerve Food while in Germany, has expected request by Germany for a truce delay in meeting the allied terms comes up for discussion.

For the last four years we have been tied to our beds and families of war. How to get back to the normal way of living in the face of numerous obligations and suggestions brought on through the war is a question that demands the most serious attention.

For the country at large, many of these problems can be adjusted to as to avoid any serious disruption, for their magnitude is such they will challenge the biggest statesmen and the wisest statesmen for the demobilization of the Canadian corps.

This, however, will not remedy the condition of the small communities, each of whom have their own peculiar problem that must be solved and met largely by their own people. This is a task for the local leaders, the church, the school, the business organization, a knowledge of conditions and a keen desire to render actual service.

The tendency of such times is, that many overzealous re-constructors are likely to make some same mistake as did the fathers of the Asthma Remedy. Uncertainty may exist as to cause, but there can be no doubt that the failure of the Asthma Remedy, which has given birth to many well-meaning efforts. In the face of this, it behoves every agency of government to have a definite and clear-cut economic purpose to be alive and to only have a thorough knowledge of conditions.

One of the agencies that is doing a great deal to meet this condition is the rural Y.M.C.A. This organization works in the community, and the people with whom they work, problems and conditions are endeavoring with the assistance of their secretary to keep their own constitution in order, and to help them in many cases from being the victims of visionary but impossible schemes.

Through this leadership, sane and safe ways can be evolved. The morale of the community must be the morale of the army, and the morale of the civilian must not lose its grip on the people—on this will depend the history for years to come. The end of the war summons the teachers, parents, and all others to a serious civic service as Lloyd George has recently said—"We want neither re-action nor revolution, but a sane, well-advised steadiness of bold re-construction."

Would be Great

Blow to Berlin

Captain of Battleships Would Cut Communication with Siberia

Berlin.—Polish troops have occupied the railway station at Croisnay, four miles from Brestenbach and have taken all communication with the German commander-in-chief, General Hindenburg, who is demanding that he surrender. The demand has been refused and the Germans will defend Brestenbach at all costs, according to the Tageblatt.

Brestenbach is near the frontier between the provinces of Prussia and Brandenburg.

Captain of Brestenbach the Poles would be most superior for Berlin and all northern Germany.

Its loss would cut communication between Berlin and Siberia and would endanger the provisioning of Frankfort-on-the-Oder and all northern Germany.

The captain completed his consideration of the Polish situation and directed the ministry of war to take the necessary technical steps to strengthen the eastern frontier.

When preparations were completed and probably within a week, the cabinet will probably appeal to the people to form a volunteer army to protect the German borders.

Found Subs Under Construction

London.—One hundred and seventy submarines, all under construction, were found when the allied naval commission visited Germany.

They are to be used for the landing out of the terms of the armistice, according to newspapers here. These U-boats, it is said, will be turned over to the allies.

Such a variety of races are represented in the Philippine Islands that 31 languages are spoken.

The secret of true wisdom is to know your ignorance.

Reconstruction On Sane Lines

Getting Back to Normal Living Big Problem to Face

As the end of the war is now at hand everyone is conscious of the great problems that are facing us with the coming of peace.

For the last four years we have been tied to our beds and families of war. How to get back to the normal way of living in the face of numerous obligations and suggestions brought on through the war is a question that demands the most serious attention.

For the country at large, many of these problems can be adjusted to as to avoid any serious disruption, for their magnitude is such they will challenge the biggest statesmen and the wisest statesmen for the demobilization of the Canadian corps.

This, however, will not remedy the condition of the small communities, each of whom have their own peculiar problem that must be solved and met largely by their own people. This is a task for the local leaders, the church, the school, the business organization, a knowledge of conditions and a keen desire to render actual service.

The tendency of such times is, that many overzealous re-constructors are likely to make some same mistake as did the fathers of the Asthma Remedy. Uncertainty may exist as to cause, but there can be no doubt that the failure of the Asthma Remedy, which has given birth to many well-meaning efforts. In the face of this, it behoves every agency of government to have a definite and clear-cut economic purpose to be alive and to only have a thorough knowledge of conditions.

One of the agencies that is doing a great deal to meet this condition is the rural Y.M.C.A. This organization works in the community, and the people with whom they work, problems and conditions are endeavoring with the assistance of their secretary to keep their own constitution in order, and to help them in many cases from being the victims of visionary but impossible schemes.

Through this leadership, sane and safe ways can be evolved. The morale of the community must be the morale of the army, and the morale of the civilian must not lose its grip on the people—on this will depend the history for years to come. The end of the war summons the teachers, parents, and all others to a serious civic service as Lloyd George has recently said—"We want neither re-action nor revolution, but a sane, well-advised steadiness of bold re-construction."

SERIOUS ILLNESS AVOIDED

—Many a serious illness has been avoided by the prompt use of Dr. Williams' Pink Pills to quickly the blood vessels and tone up the system, and to give the vital organs rest.

Serious disease generally come from neglect. Therefore any thing of the blood should be looked for. If any sign, or symptom, of serious illness should be avoided by the use of Dr. Williams' Pink Pills. In fact, the blood is peculiarly liable to get out of order—to become thin and weak, and to undergo a breakdown in health. This can be avoided by the occasional use of Dr. Williams' Pink Pills, which is the most delicate constitution.

These pills will give you a new lease of life, and will strengthen nerves, banish depression and lack of energy, cure blisters, cure pain in the back and general weakness, cause the disappearance of various diseases, heart fluttering, etc.

These pills will give you a new lease of life, and will strengthen nerves, banish depression and lack of energy, cure blisters, cure pain in the back and general weakness, cause the disappearance of various diseases, heart fluttering, etc.

These pills will give you a new lease of life, and will strengthen nerves, banish depression and lack of energy, cure blisters, cure pain in the back and general weakness, cause the disappearance of various diseases, heart fluttering, etc.

CONFERENCE ON EAST

Paris.—Not only the leading aristocrats in the east, following allied occupation of parts of Hungary, Turkey, Russia and Bulgaria, the French government has summoned General Louis Franchet d'Esperey, commanding the forces sent to the Balkans, to Paris, for a conference, says Alfred Hutin, of the Echo de Paris. The general is expected to arrive in Paris in a few days.

Services will be held in the Anglican Church on Sunday next at 7:30 p.m.

Mrs. Bolwer who has been visiting in Calgary for the past few weeks returned to town on Sunday.

There's a good time waiting for you at the Hard Times Dance on Friday. Don't miss it. Mrs. Trainer's Orchestra will be there.

Charlie Nutter was one of the most interesting incidents of the past week. He came just in time for the Carnival and left on Sunday for Maple Creek.

Don't forget that the Hospital scheme is to teach your business as everyone else's. It is necessary—it is good—and it is good enough to work for.

We are informed on the best authority that as soon as the government official whose duties are to count the deer in the Province has completed his chores he is to start taking a census of the gophers.

Among other visitors to town last week, for the big doings at the Odd Fellows were A. Feltner of Countess, Dan Stephens and F. W. Carpenter of Gem, W. Bradley, J. Tully and O. E. Tischle of Calgary.

G. F. McIlveen, of the Bank of Commerce, has been transferred to the Provost branch of that institution. During his short stay at Bassano, Mac. made himself so well liked that he will be missed in at least one circle.

Billy Foster was a visitor to Calgary over the week end. We understand his visit was mainly for the purpose of endeavoring to get the services of "Pinnes" for the Bear Cats—but we may be mistaken.

Ladies! Your work for the Red Cross Society is urgently needed still. Won't you make another effort to attend the Sewing Drive on Friday. It has been extended especially to give you another opportunity.

Accounts written up and audited. Systems installed. Financial and trading statements and balance sheets drawn up. Partnership agreements, dissolutions and accounts adjusted. All accounting problems given careful consideration—H. W. FORD, Public Accountant, Bassano.

Among the delegates to the U.F.A. Convention, from over the Red Deer, we noticed J. W. Forster, G. A. Forster, L. E. Helm, W. Bradshaw and J. Olson. A strong and competent delegation which should accomplish much if given a reasonable opportunity.

The long-expected extension of the Telephone line from Bassano to Empress is to be started this year. This statement, coming as it does from the Hon C. R. Mitchell, will be received with satisfaction by the long-suffering residents of the territory which the extension will cover.

If the Liberal Convention did nothing else it gave the Hon. Chas. Mitchell a boost for standing to his Unionist principles, though no doubt a loan was intended. Stick to Charlie, you will not lose any support worth the having by showing that you have a backbone as well as a wish-bone.

The following special topics will be discussed at the Presbyterian Church, on Sunday, January 26th; the subject "Why People Do Not Go to Church," and on Sunday, February 2nd, "Why People Should Go to Church." As these subjects are of vital importance and of interest to everyone, all are cordially invited to be present.

Jimmie Scott informed us today that he has sold his interest in the farm adjoining the town to a party who intends to devote his whole time to the work of dairy-farming, and to who will supply milk, butter and eggs to the town and farm, with the facilities obtainable through the railway to the plains and it is to be hoped that the new owner will be able to develop sufficient business as to warrant the erection of a small creamery.
